James--

The following are my recommendations to your draft for all to comment on. First of all I want to know where the funding and/or manpower will come from for our Registrar's to do all of the follow-up on 100's of Registration forms that come into their offices that last week or so??

Now just clean up. 1) c and 2) c -- shouldn't it read ... the time **being** ... instead of just ... the time ... ? In 5) the terms "old folks home or old age home" are no longer used. It should be retirement home. The old do not want to be referred to as such! Ask any one in the industry.

It also seems to me that 1) c and 17) b would eliminate most students, because a large majority of them plan to leave at the fixed date of their graduation.

Marty Caldwell, Orange County Electoral Board

Subject: Residency Task Force - Proposed Regulations

Attached you will find proposed regulations.

We have heard your requests for a public comment period and appreciate the suggestion. Given that Chair Cunningham is out of the country until shortly before the July 9 meeting, I do not expect that we will have public hearings. Our intent is to give the task force a chance to review the proposed regulations, suggest changes, and come to an agreement on the regulations before it is released to the public. Once the task force agrees upon a draft, our plan is to send a press release, post it to our website, and request comments via an online form. We will make all of these comments available to you.

Given that the release of this proposal was delayed, please submit your comments and suggestions before Monday, June 22.

Thank-you again for your work on this important issue.

James B. Alcorn, Esq.
