**Subject:** Comment on proposed residency guidelines

Hello James,

I hope you are well.

I support the bulk of the proposed residency guidelines, and applaud all the hard work that obviously went into them. Here is one minor suggestion about the proposed residency guidelines. There are two places where guidelines reference VERIS. I suggest instead using a phrase like "the state voter registration database".

The reason is so that if, 5 years from now, the SBE decides to replace VERIS with a new much better system called VERIS2 or something else, it would be good if the guidelines were not left referencing a historical database. There are multiple ways to achieve that flexibility I'm sure.

Best Regards,  
Alex Blakemore
