Subject: Some technical adjustments
Follow Up Flag: Follow up
Flag Status: Red

The attached are some technical and logistical adjustments to the residency regs, that will be requested by the registrars at tomorrow's meeting.

These adjustments would bring the regulation into consistency with other cited code sections, and simply serve to close a couple of open ended time schedules and inconsistencies and interpretative definitions within the document itself.

These are not ideological changes, but technicalities within the wording and timing that we feel needed to be cleared up so as not to deny any applicant the due process entitled to them.

Thanks for the opportunity to serve and make Virginia elections even better,

Tracy Howard
